## Honor Brings Responsibility

To be born in Philadelphia, where the nation was born, is an honor with distinctive individual responsibilities.

To live near to the historic battle grounds, of which Independence Hall and the Liberty Bell are the center, imposes upon us patriotic leadership. It is impossible to forget Valley Forge.

To live in the city which was the home of the first President of the United States superimposes upon city and city officials and the public generally the duty of setting the example to the entire United States of observing the birthday of the Father of his Country by patriotic ceremonies of a reverential and impressive character.

An education at the city's expense in the public schools of 6245 teachers and officials and its future citizens of 209,888 scholars creates an obligation on the part of those receiving it to become thoroughly acquainted with the part Philadelphia had in the Revolutionary War and the lives of the heroic men and women of that period; and by annual public exercises of a public nature to quicken their patriotism and pride in their city.

Every citizen and corporation should endeavor to promote the honor of this first American city by being and doing such things as will add to the city's influence in the United States and its fame across the seas.

## If You Delight in Eastern Embroideries

then this advertisement is especially for you.

Some of the priests' robes and other robes which have been laid away in chests in the Oriental Store are showing the effects of time—their seams are breaking apart, and in some instances the fabrics themselves are giving way. Such an inevitable condition does not alter their value to artists or to people who love color for its own sake and who could mend and use these robes for hangings or table-covers or other decorative purposes, but it does weaken our desire to keep them. So we have reduced them all and they may be had for a third less—in some instances even a half less than their original prices.

You will find them in the newly arranged "Embroidery Room" of the Oriental Store.

(Fourth Floor, Chestnut)
